

POLYCAPS TECH PLAST Pvt Ltd

At Polycaps Tech Plast, we are dedicated to setting the benchmark for excellence in high-quality plastic caps and closures, specifically engineered for the diverse needs of the food and beverage industry. Our commitment extends beyond mere functionality; we strive to deliver innovative, safe, and reliable packaging solutions that ensure product integrity and consumer satisfaction.

We understand the critical importance of hygiene, freshness, and safety in food and beverage packaging. Therefore, every cap and closure we produce is a testament to our rigorous quality control processes, adherence to international standards, and the use of premium, food-grade materials. Our goal is to empower our clients with packaging components that not only protect their products but also enhance their brand's appeal and operational efficiency.

Our Core Values

- **Innovation:** Continuously exploring new materials and designs to meet evolving market demands.
- **Quality Assurance:** Implementing stringent checks at every stage of production to guarantee superior products.
- **Customer Focus:** Building lasting partnerships by understanding and addressing unique client requirements.

Industry Expertise

With years of specialized experience in the plastic manufacturing sector, Polycaps Tech Plast has developed deep insights into the specific challenges and opportunities within the food and beverage industry. Our team of experts collaborates closely with clients, offering tailored solutions that range from custom designs to high-volume production, ensuring optimal performance and compliance with all regulatory guidelines. We are passionate about contributing to the success of our partners by providing packaging solutions that stand out for their reliability and precision.

OUR FOUNDATION

Infrastructure & Capabilities

- 25,000 sq. ft. of state-of-the-art manufacturing premises.

- In-house testing unit equipped with modern tools for stringent quality control.
- SACMI (Italy) Vision Inspection System to ensure defect-free products.
- Experienced and skilled workforce with deep domain knowledge.
- End-to-end in-house capabilities from design to final packaging.

1

Skilled Workforce

Deep domain knowledge in plastic manufacturing.

2

End-to-End Capabilities

From design to final packaging, all in-house.

OUR FLAGSHIP PRODUCT

ALASKA 27 MM NECK HDPE CAP

Key Features

- **Type:** Compression-molded closure
- **Material:** High-Density Polyethylene (HDPE)
- **Weight:** 1.3 grams
- **Compatibility:** 28mm PET preform
- **Packaging:** 8,000 pieces per carton

Premium Finish

Enhances brand image and consumer appeal.

Leak-Proof

Ensures product integrity and prevents spills.

Food-Grade

Compliant with strict food safety standards.

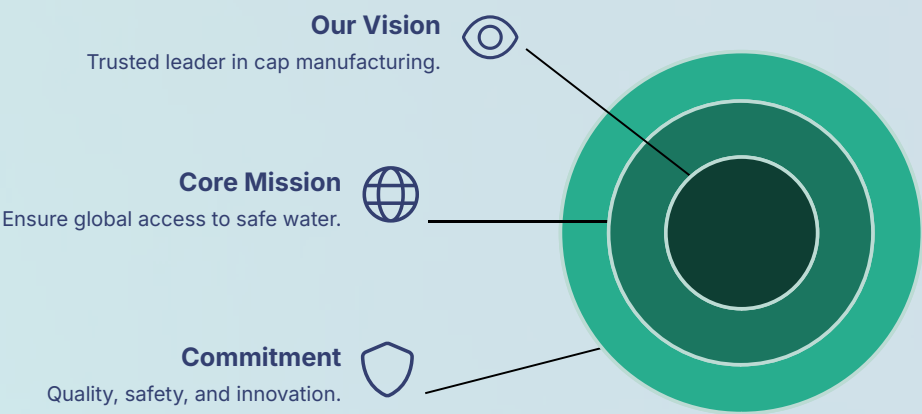

Automated Inspection

100% vision inspection for defect-free products.

OUR VISION

Our Vision is to be a trusted leader in cap manufacturing, contributing to global access to safe bottled water.

Our Mission

1

Delivering uncompromised product quality and safety.

2

Promoting sustainable and eco-conscious manufacturing.

3

Driving social responsibility and community engagement.

Our Philosophy

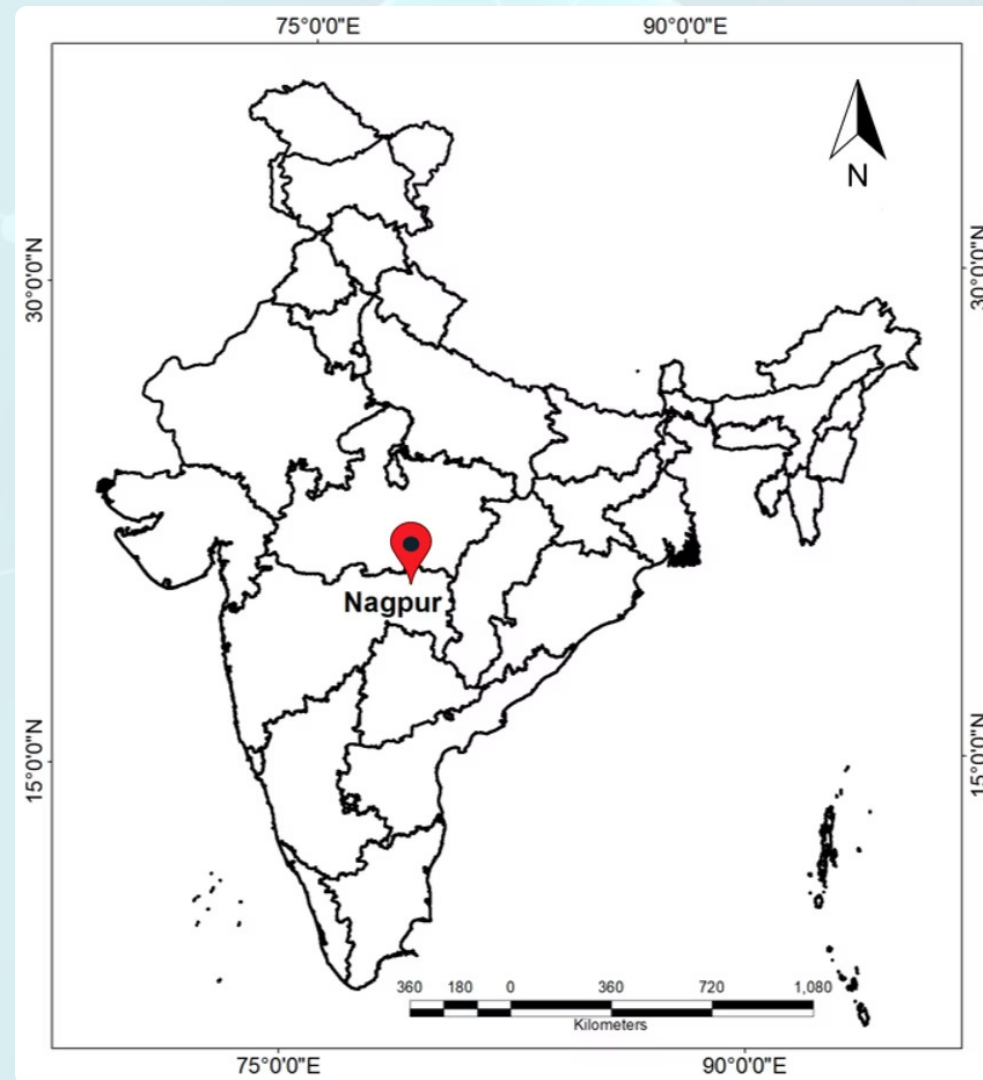

We believe in long-term partnerships that foster mutual growth.

At the heart of our business is a commitment to building lasting, collaborative relationships. We see our clients not as transactional partners, but as allies in a shared journey of growth and success.

By truly understanding your unique needs and goals, we can craft tailored solutions that empower your organization to thrive. Our passion is fueled by watching you achieve new milestones - your triumph is the very foundation of our mission.

Our Location

Nagpur's central location in India offers significant formal benefits, including exceptional connectivity, logistical efficiency, and unique strategic importance for commerce, governance, and industry
